Dear Shareholders,

Recently several initiatives are being taken in the country to promote Digitisation of the economy. One of the prime objectives of these is to provide opportunities for the micro and small enterprises to be a part of main stream economic activities and to be counted. Many of these will bring discernible positive results in the medium and long term. All these measures will enable and encourage building of 'Made in India' digital solutions which will be very beneficial to Indian economy and society. WeP has a vision to participate aggressively and comprehensively in this unfolding opportunity and to help these enterprises to conduct their business efficiently by providing state of art Digital Solution. We are rapidly getting ready for this vast digital challenge and opportunities.

I am happy to report that we were successful in 'WeP Digital' business by getting empanelment from GSTN as an approved GST Suvidha Provider (GSP). We also demonstrated digital devices which have GST ready solution. These digital devices will help the MSME businesses to file their GST returns with minimal pain. WeP also acquired first set of customers for Aadhaar Authentication. I am happy to report that we have received additional investment by way of Preferential Issue at a premium to help us grow this Digital Business Segment.

The transformation at WeP, which was initiated during the year 2015-16, continued to gather momentum:

- MPS Business grew by 6% on yearly basis.
- Retail Printing Solution Business grew by 20% on YoY basis in spite of Demonization bump.
- Cost reduction in traditional businesses helped us to contain losses at last year levels in spite of significant planned reduction in Impact Printer sales revenues.
- Good news is that in second half of the year, Printer Business Operating loss was reduced to only Rs.1.9 mn in comparison to Rs.29 mn in the first half.

As indicated in the last year's Annual Report, our sales revenue growth should begin from the year 2017-18 onwards.

We will continue to provide 'WoW' to our customers in form of WeP Products and Services with long term returns to our shareholders and challenging/exciting workplace to all our employees.

I convey my gratitude and place on record appreciation for all the employees at all levels for their hard work, solidarity, cooperation and dedication during the year. We rededicate ourselves to everyone who have reposed their faith and trust on us.

III. PRINTER BUSINESS

a. Retail Printing Solutions

WeP Retail Business unit offers Retail billing solution through innovative in-house developed BP range of products. The key customer segments include the Food & beverages, mom-and-pop stores, Textiles and other retails shops.

The Indian retail sector, which is one of fast growing sectors contributing about 15% to the GDP, is surely on the roll for the last few years. There are around 13 million retail outlets across the country accounting for 95% of the total outlets that are still to be automated or organised giving a huge opportunity for us. These outlets are largely dominated by small retailers such as local Kirana shops, owner-manned general stores, chemists, footwear shops, apparel shops and other small and medium retail showrooms.

The invincible Kirana stores have their own advantages as they offer credit, and apply flexible conditions for product returns and exchanges. Apart from these factors, neighbourhood locations, personal services etc., are among the strengths of the neighbourhood retail stores which are largely unorganised and lack access to modern technology to run the business. Billing adoption in the unorganised sector is far less compared to its organised counterparts. That simply means there lies a huge untapped market for modern all-in-one point-of-sale solutions, cloud and mobile-based applications, which are fast catching up.

The unorganised retail sector is shifting from manual to electronic billing as the process is fast, convenient, takes less space and cost-effective.

WeP is well positioned today to address the above market with vast experience of more than 50,000 happy customers, deep understanding of customer needs, knowledgeable frontend sales force and presence through sales and support channel across India.

We continue to work on emerging new technologies like cloud, Mobile computing, payment gateway, digital wallet and Aadhaar based authentication and roll out solutions for shop automation and management to the unorganised retail shops.

b. Impact Printers

The Impact Printer market continued its expected decline in 2016-17. The market is now more niche application based, as printing for general applications continues to migrate to alternate technologies namely, lasers in offices and thermals in retail stores. Adoption of digitization especially among corporates and banks has also impacted the quantum of hardcopy printing today. However, niche applications like printing of receipts at medical stores, cheque / demand drafts in banks, gate pass and invoices in warehouses and depots continue to rely on the multi-copy capability and low cost per page advantage of dot matrix printing. WeP's forte has been its product performances which is more suited for such specific applications. A recent trend in this segment is the adoption of higher resolution (laser-like quality) printing which has found important use in education, finance, manufacturing and logistics. This segment will continue to decline in coming years and WeP has planned for this decline in the future strategy and is focused on reducing capital deployment and costs in this segment of business.

1. Overview

The year 2016-17 will be remembered as a year of Demonetization & Digitization. November 8, 2016 changed the perception of every Indian towards cash transactions and the importance of moving towards Digital Economy. The Digital push by the Government of India is a transformational move which could empower every segment of the economy particularly in the rural areas. Several initiatives are being undertaken by the Government to make all parts of India connected with better infrastructure to bolster the vision of Digital India. E-commerce and Digital Economy are redefining the way business is being done in India. Retail businesses are swiftly adapting to counter the onslaught of the new age E-commerce companies. This is forcing every segment of Retail business right from the bottom i.e. Kirana Stores / General Stores to Super Markets to adopt technology to remain relevant in the value chain.

Your company believes that the success of the Digital India initiative depends on how well and how quickly the lowest end of the retail chain adopts technology and hence is focused on automating this segment through its range of Retail Billing Printers. It has developed and designed customized applications for meeting the needs of variety of retail segments like Foods & Beverage, General stores etc.

Another significant reform measure is the introduction of Goods and Services Tax (GST) regime in India. GST is expected to unify the entire Indian market as one and remove cascading effect of taxes and complexity of operating businesses in India significantly. It is expected to benefit all class of consumers and can boost the GDP in the coming years. WeP has identified this opportunity last year and developed device based and non-device based solutions for enabling all types of customers right from "Mom & Pop stores" to Large enterprises, comply with the GST regime. Your company has been appointed as a GST Suvidha Provider (GSP) and is part of the only 34 companies across India appointed as GSPs.

2. Financial Performance

Your company's revenues come from two major lines of business; Managed Printing Solutions (MPS) Service business and the Manufacturing, Design and Distribution of Computer Peripherals business (Printers business). The Printers business has the Retail Billing Printers and the traditional Dot Matrix printer business. As discussed in our previous annual reports, the Dot matrix printer business industry is declining swiftly and the same trend continued in 2016-17. The Retail Printers business is growing significantly and is expected to do so in coming periods. The MPS business continued its positive-growth trend again in this year.

Revenue

In continuation to a good performance in the previous year, the MPS business logged a growth of 6% again in its services revenue. The revenues grew from ₹ 374 Mn. in FY 2016 to ₹ 396 Mn. in FY 2017. MPS business is swiftly upgrading into a Technical solution as

against a standard Printing solution approach earlier. Customers have upgraded their needs and are looking for value adding and technology driven solutions which will enable them to improve their productivity and costs. WeP is well positioned to offer these technological solutions to its customers.

Revenue in the Printer business declined significantly during this year due to drop in the Dot Matrix Printer revenue. The revenues dipped to ₹ 381Mn. in FY 2017 from ₹ 505 Mn. in FY 2016. However, the Retail Printers registered a growth of 20% over the previous year. The company continued to focus on developing Application Specific Printing Solutions and the growth in retail printer business is a result of that focus.

Operating Profit

During the year the Consolidated Earnings before Interest, Depreciation and Tax (EBITDA) of the company improved from ₹ 92.4 Mn. in FY 2016 to ₹ 101.4 Mn. However, the EBIT declined from ₹ 28.5 Mn. in FY 2016 to ₹ 21.6 Mn. in FY 2017. During the year, the company has invested ₹ 139 Mn. in asset deployment for MPS business which has resulted in an increase in Depreciation of ₹ 16 Mn. alone. Further, the company invested in expansion of its Digital Services offerings to foray into GST services and Aadhaar authentication services in addition to its existing Document Management Solutions Business. These investments impacted the EBIT of the company. The company is confident that the investments made will result in much improved performance in the coming years.

The Printers business operating loss increased marginally from ₹ 27.52 Mn. to ₹ 31.3 Mn. However, the cost control initiatives in this business started yielding positive results and is visible from the fact that the operating loss in H2 of FY 2017 was only ₹ 1.9 Mn. as against an operating loss of ₹ 29.5 Mn. in H1 of FY 2017. MPS business continued to do well on profitability due to growth as well as continued focus on operational efficiency.

Net Working Capital

The MPS operations are working capital intensive as it has to maintain supplies of spare parts and consumables across India for meeting customer service commitments. Further, since the customers are usually large corporates, public sector banks etc, there are receivables for the products supplied and services rendered. The company has made conscious efforts to reduce the capital deployment in the printers' business. These efforts helped the company to reduce its overall working capital cycle from 100 days in FY 2016 to 68 days in FY 2017. There was an improvement in the Inventory holding period as well as receivables outstanding period.

The company improved its Net Operating Cash flows of ₹ 144.86 Mn. as against ₹ 103.36 Mn. in FY 2016. These cash flows were used to invest in the capex required for MPS business and also for expanding its foray into Digital services initiative.

3. Internal Control Systems and their adequacy

The Company has in place adequate internal control systems commensurate with its size and nature of its operations. The Internal Financial Control (IFC) framework devised by the company have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, safeguarding Company's assets, promoting operational efficiencies and ensuring compliance with various statutory provisions.

Strategic, Operational and Business risks are identified and appropriate mitigating action plans are put in place by the company. They are reviewed periodically.

The following risks are identified as key risks by the company. The mitigating steps taken to counter them are also outlined below.

Revenue Concentration

The company has concentration of revenue coming in from industry segments like Banking, Financial services and Insurance. Further, a few customers also contribute to a fair share of the revenue for the company. Such concentration exposes the company to a risk inherent in that segment or for a particular customer.

Mitigants

We have adopted prudent norms based on which we monitor and prevent undesirable concentration in geography, industry or customer. The quest for diversified activities within the existing realm of overall management after due consideration of the advantages and disadvantages of each activity in consistent with company policy of increasing business volumes with minimum exposure to undue risks. Concentration of revenue from any particular segment of the industry is sought to be minimized over the long term by careful extension into other activities, particularly in areas the company has some basic advantage such as availability of land, technical or manpower resources.

Inventory Obsolescence Risk

The company needs to maintain printers for a period of more than 48 months. These models are constantly upgraded by the principal suppliers. However the company needs to maintain adequate stocks of spares and toners at all its customer locations in order to meet the customer requirements. These spares may or may not be used. This leads to a risk of us maintaining obsolete stocks. At times we are required to maintain inventory for demo equipments, replacement for repairs and normal distribution stocks. Your company faces the risk of obsolescence in the event of not being able to sell or deploy the above stocks.

Mitigants:

Your company is conscious of these risks and tracks and monitors its inventory at regular intervals to minimize obsolescence. Your company continuously monitors the stock levels of such items and ensures they are within the reasonable limits.

Industry Risk

Your company is facing stiff competition from other players who are both organized large brand owners and unorganized local players. This competition forces the company to cut down its margins and reduce price for its products and services for both the existing customers and new potential customers.

Mitigants:

Your company has put in a focused approach towards monitoring all such competitive activities. Your company reviews its customer relationship strategy periodically and keeps providing innovative and new solutions. Your company is also focusing on moving up the value chain at the customer by providing Document Management solutions. Your company believes in providing value to the customers and has put in a dedicated team to manage the existing and new customers.

Foreign Exchange Risks:

A good amount of import of stock is done in order to meet the consumables, spares and printer requirement. The time involved from the date of order, receipt of the stock from the vendor, supply to the customer has remained in the range of 30 to 45 days. Further, the credit period from the vendor is an average period of 45 days. This time lag is potential enough to affect the profitability of company due to fluctuation in the currency exchange rate.

Mitigants:

Company has a defined policy for managing its foreign exchange exposure. The management reviews the hedging policy on a quarterly basis and takes appropriate decision from time to time in order to minimize the impact of such volatility.

System Risks

These risks relate broadly to System capability, System reliability, Data integrity risks, coordinating and interfacing risks.

Mitigants:

IT department maintains repairs and upgrades the systems on a continuous basis with personnel who are trained in software and hardware. Password protection is provided at different levels to ensure data integrity. Licensed software is being used in the systems. **ANNEXURE - A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE
ON THE CONSOLIDATED FINANCIAL STATEMENTS OF WeP SOLUTIONS LIMITED**

*(Referred to in Paragraph 1 point (f) under the heading of
"Report on Other Legal and Regulatory Requirements" of our report of even date)*

1. Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of WeP SOLUTIONS LIMITED (hereinafter referred to as "the Holding Company") as of that date.

2. Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

3. Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

4. Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

5. Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

6. Opinion

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have audited the internal financial controls over financial reporting of WeP SOLUTIONS LIMITED ("the Company") as at March 31, 2017, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

2. Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

3. Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

4. Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

5. Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

6. Opinion
